

AUTOMATIC HAND SANITIZER

Application

The Automatic Hand Sanitizer (AHS) a touchless hand disinfection machine is designed to nebulize hand sanitizer or alcohol, and provide automatic dosage of spray, which enables a quick and easy hand disinfection, achieving optimal hand hygiene. This product is a great hand hygiene solution for all public places. It detects your hands under the spout and will automatically dispense sanitizer. This instrument works on the principle of infrared sensing and the instrument is accurate, simple, economical and reliable. The instrument is most suitable for public places such as Offices, Schools, Colleges, Monuments, Hospitals, Bus Stands, Airports, Temples, Railways, Factories, Hotels, Restaurants, Dairy Plants and Laboratories to avoid cross-contamination.

** Another variant available as Automatic Hand Wash (water dispensing with adjustable timing)*

Features

- Infrared proximity sensor detects hand from 5 cm (min) to 15 cm (max) and sprays sanitizer liquid automatically.
- ABS (HDPE) Housing- Durable, water and alcohol -resistant and rust proof, built in Sensor to Sense the hands underneath its tap.
- Resistant against moisture and corrosion.
- Hygienic hands free solution to prevent cross-contamination.
- The high end microcontroller based design to dispense the accurate amount of liquid sanitizer using timer.
- High Capacity: 8 liter storage tanks, suitable for heavy traffic usage in public places.
- Transparent: Sanitizer level visible.
- Sleek, compact design to enhance the interiors.
- Controlled dispensing volume every time.
- Electricity operated.
- Wall mounted or table top.
- Required Liquid: Isopropyl Alcohol (IPA).

Technical Specifications

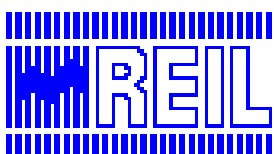

Sensor Type	: Photo IR Proximity Sensor (Photo Electric Switch), metallic body
Operation Mode	: Automatic by sensing of hand
Sanitizer tank Capacity	: 8 liter
Dispensing Volume	: 3 ml in single fume spray (Timer controlled)
Working Pressure	: 90-120 psi
Hand Sensing Range	: 5 cm (Min) and 15 cm (Max)
Power Supply	: 220V AC, Single Phase 50 Hz
Max power	: 55 Watt
Body Material	: ABS (HDPE) with visible level of filled sanitizer
Body colour	: Body: White, Tank: Transparent blue
Installation	: Wall Mounted or table Top
Weight (Approx.)	: 5 Kg.
